Seedstock Plus Fall Bull & Female Sale

Saturday October 19, 2024 * 12 noon

Joplin Regional Stockyards, Carthage, MO

Map to Sale Site:

Directions to Sale Site:

Take Exit 22 (Cty Rd 100) off of I-44 and turn north - then take the frontage road to the Stockyards entrance.

Travel:

Commercial Air Service is available to Kansas City, MO which is 175 miles north. There are regional airports at both Springfield and Joplin. Call if you need transportation to or from an airport!

Accommodations:

LaQuinta Inn & Suites
Joplin, MO
417-781-0500

Quality Inn Hotel
Carthage, MO
417-359-5900

Days Inn, Carthage, MO
417-358-3900

After Sale Care:

We will be happy to care for your bull/s until you are ready for them. The buyer will be responsible for feed at cost until delivery.

Seedstock Plus Customer Service Programs

Guaranteed Sight-Unseen Purchases

Free Delivery on bulls
or \$100 Discount if picked up sale day

Bull Warranty Program

Bulls are guaranteed for Fertility, Structure and Disposition. For an additional 5% of purchase price, bull can be warrantied for injury and death for 6 months.

Marketing Assistance Program

- Feeder Calves
- Replacement Females
- Bred Heifers, Cows and Pairs

If you need additional information on a particular program, call us at the Seedstock Plus office.

Health

Seedstock Plus Bulls have been tested and found negative for PI BVD. We recommend producers purchase only bulls that are negative for Persistent Infected BVD Virus. **Bulls are also tested NEGATIVE for Trichomoniasis.** This is not mandated by the state of Missouri yet however, several surrounding states are requiring it and we felt it best to be on top of that. The bulls have been vaccinated and boosted with IBR, BVD, PI-3, BRSV-4, Blackleg & Vibrio Lepto. They have been on a regular de-worming schedule since weaning. All the bulls have passed a breeding soundness exam that includes live semen evaluation, palpation and scrotal measurement. All the necessary health tests have been performed and interstate health papers will be available sale day.

Seedstock Plus Fall Bull & Female Sale

October 19, 2024 * 12 noon

Joplin Regional Stockyards, Carthage, MO

Selling: 130 - Balancer & Gelbvieh 18 Month Old & Yearling Bulls

10 Registered & 8 Commercial Fall Breds / Pairs

6 Registered Spring Bred Heifers & 9 Registered & 18 Commercial Fall Open Heifers

About the Bulls:

- Prior to delivery to the test, bulls are sorted and culled at home
- Bulls are brought in to be fed together at a Regional Development Center
- Bulls are grown with their longevity in mind - fed for 3# ADG with high roughage ration
- Bulls are culled again prior to catalog for poor gain, conformation, disposition, etc.
- All bulls have passed a thorough breeding soundness exam prior to the sale
- All bulls are tested Negative for BVD -PI3 & Trichomoniasis
- All bulls have genomically enhanced EPDs and are SIRE VERIFIED.
- All Gelbvieh & Balancer bulls are Polled and Coat Color tested.
- The bulls are Guaranteed 'Free' of the currently known Genetic Defects we can test for.
- EPD's updated weekly so there will be updated EPDs, Tenderness scores, Ultrasound, frame scores & scrotal measurements will be available on a supplement sheet on sale day.

We are planning to video each of the bulls on October 7-8th - after they have been semen checked and clipped. The videos will be posted during that week and will be available to view by October 12th. If you would like to see a video of a specific bull and have access to high speed internet - you can go to our website OR www.dvauction.com and download the videos by the bull's LOT #.

EPDs ARE CURRENT AS OF 9/3/2024

Internet Bidding:

The sale will be available to watch and bid real time at www.dvauction.com

1. Create an account under the 'create new account' tab.
2. Apply for bidding by clicking 'apply for bidding' in the upper left corner of the screen. **AT LEAST 24 HOURS PRIOR TO THE SALE!**
3. Tune in to the sale to make your purchases!

Industry Commitment

The bulls included in this offering come from producers who are in the Seedstock business for the long haul. They raise the kind of bulls that produce the type of feeder calves that feed well and grade and yield on the rail. These are the kind of bulls that produce the replacement heifers that make our commercial customers so successful. Feel free to contact any of the members listed below if you have questions.

Breed Make-up on Balancer bulls. Abbreviations include: AN = Black Angus AR = Red Angus GV = Gelbvieh XX = unknown

Expected Progeny Differences 'EPD' Definitions

The American Gelbvieh Association transitioned to the BOLT system for EPD calculations in the fall of 2018. The American Angus Association had already been using this system for the previous year. There are 12 beef breed Associations in collaboration to form IGS (International Genetic Solutions) which brings a new, streamlined method for incorporating genomic results into the EPDs. This incorporates data and updates EPDs on a weekly basis.

EPD Definitions:

CE: Calving Ease – A number that predicts the average difference in ease with which a sire's calves will be born when he is bred to first calf heifers – **higher numbers indicate greater calving-ease.**

BW: Birth Weight, WW: Weaning Weight & YW: Yearling Weight – All are expressed in pounds, this shows the expected number of pounds a bull or female will add or subtract from their progeny's birthweight, weaning weight and yearling weight respectively.

MK: Milk: expressed in pounds of weaning weight that a female will add/subtract or that a bull's daughters will have.

TM: Total Maternal - expresses the combination of what a sire transmits to his daughters in the form of genetics for growth and genetics for milking ability. Or that same trait directly applied to a female and expressed in pounds.

CEM: Calving Ease Maternal: this EPD predicts how well an animal's daughters will calve with a higher number being easier calving.

ST: Stayability: Predicts the genetic difference, in terms of percent probability, that a bull's daughters will stay productive within a herd to at least six year of age.

DOC: is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

CW: Carcass Weight: expressed in pounds of carcass weight adjusted to a constant fat endpoint.

REA: Rib Eye Area: expressed in square inches of rib eye muscle area adjusted to a constant fat endpoint.

MB: Marbling: expressed in degrees of marbling score, a determinant of USDA Quality Grade. Value is adjusted to a constant fat endpoint.

\$Cow: Represents the genetic value in dollars of profit of an animal when retained as a replacement female relative to other animals in the herd. A higher number represents more profitable genetics for maternal productivity.

FPI: An economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on grade and yield.

EPI: An economic selection index developed to aid producers in selecting for more feed efficient cattle that still have acceptable amounts of gain.

We are proud to announce that moving forward, all Seedstock Plus bulls will be developed by Burbank Bull Development LLC in St. Catharine, MO. Matt & Cammie Burbank, with the help of their kids and Eli Allen, will handle the daily feed & care of all Seedstock Plus bulls, on-line females and growing bulls from weaning until graduating into the Seedstock Plus development test.

We would like to thank the crew at RJM Farms in Holden, MO for many years of excellent work on behalf of the Seedstock Plus group developing the bulls for our program. The entire Anstine family, Tim & Janet Evert and others in the Holden area are friends, customers and have contributed to the past success of Seedstock Plus. We will continue to support those relationships in the Warrensburg, Holden and Kingsville area but admit that we are excited to bring the development of the Seedstock Plus bulls home.

We would encourage anyone to come visit the new and improved facility that will accomodate all we do here at home and all the needs of the Seedstock Plus program. Although we did not install the GrowSafe system (due to cost & labor issues), we have made some significant improvements to the bull development process such as large pasture turn-out paddocks for the bulls. Our family is committed to the future success of the Seedstock Plus program.

Bull Warranty Program Insurance for your bull!

Several years ago, Seedstock Plus instituted an insurance program for new bull purchases in an effort to protect our customers from a catastrophic loss if something should happen to a bull within the first breeding season. This program covers any and all possible things that a bull can do to himself in the first six months of ownership. The warranty costs **5%** of the purchase price and should you have to use it, we try to either bring you a comparable replacement or find a suitable loaner bull to get the cows bred if you are still in the midst of breeding season. If something happens to him towards the end of the season, we still cover that but often will either take the bull back and issue a credit towards your next purchase or have you ship the bull, keep the salvage funds and issue a credit for the balance. Any way you look at it - we get you back even! We've warrantied bulls that have been hit by lightening, hit by trains, drowned, broken various body parts or been injured in such a way that he won't ever be sound to breed cows again.

There are very few affordable commercial insurance policies that will cover a bull for loss of use. Farm policies will cover 'acts of God' (so do we!) but again, an injury is just your tough luck. The **5%** of purchase price cost is a small price if something happens to your bull within that first 6 months!

We appreciate the fact that you've put your trust in us to present you with a bull that has a good disposition, good feet and legs and will breed cows - we feel those things should be 'on us' and you don't need insurance if you have a problem in one of these areas - you just need to let us know and we'll take care of it. We try to catch every possible problem prior to the sale but things happen and bulls are bulls.... But if your bull gets injured or dies, he needs to be insured! Take a good look at what the warranty can offer you and be sure to tell us at the settlement table that you want to insure your bull!

The Profitable Blend of Angus and Gelbvieh Genetics!

Both the Balancer & Hybrid bulls' EPD's are figured on the Gelbvieh base and can be compared to the Gelbvieh bulls.
The average EPD's for Balancer bulls as of 9/3/2024 are:

Genomic-Enhanced EPDs
 All of the bulls in the Seedstock Plus Program are DNA tested to be able to provide the most accurate, DNA -Enhanced EPDs as part of our commitment to bring you the best data so you can make the most informed decision and get the best bull for your program. Let us know if you need any help understanding any of the data.

About Gelbvieh Bulls

Each of the Gelbvieh bulls is listed separately in the catalog with their own individual performance and pedigree information. They are all registered with the American Gelbvieh Association. The EPD's are the most current provided by the Gelbvieh Assoc.

The Average EPD's for Gelbvieh bulls as of 9/3/24:
CE:13 BW: 0.1 WW: 70 YW: 103 MK: 23 TM: 58
CEM: 6 ST: 16 DOC: 12 CW: 28 REA: 0.66

Terms & Conditions

Terms: Terms of the sale are cash or personal check unless satisfactory credit arrangements have been made with the seller previous to the sale.

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids shall be settled by the auctioneer and his decision shall be final. Mailed or telephoned bids will be handled with the strictest confidence.

Registrations & Transfers: Each animal which is offered and sold has a certificate of registry available at the time of sale. The seller is responsible for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

Purchaser's Risk: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold.

Announcements: Any errors or changes in information contained in the catalog will be announced from the auction block. Such announcements shall take precedence over information contained herein.

Rights and Obligations: The above terms and conditions of sale constitute a contract between the buyer and seller of each animal and shall be equally binding to both. Animals resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the parties connected thereto are not covered by the above terms and conditions of this sale. Neither the host farm, auctioneers, nor any other person connected with the management or conduct of this sale assumes any liability, legal or otherwise, except as set forth above.

DEFINITIONS AND GUARANTEES

HORNED: An animal with a horn growth affixed to the skull that has or has not been removed.

POLLED/SCURRED: An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.

POLLED: An animal with absence of horn growth (An animal can have scurs and still be genetically polled)

DOUBLE POLLED: An animal whose sire and dam are both polled or scurred, this gives this animal the possibility of being homozygous polled for the polled trait but it is not yet proven so.

HOMOZYGOUS POLLED: An animal who carries two polled genes, and will produce polled or polled/scurred offspring with every mating.

DILUTER GENE: A gene carried by some Gelbvieh cattle that affects the degree of red color in the hair coat. Bulls carrying this gene can produce gray calves when mated to black cows or cream colored calves when mated to each other.

DILUTER FREE: All Red Angus are free of the diluter gene as are all red Gelbvieh cattle resulting from a double black mating. Red Gelbviehs can also be proven diluter-free by mating to black cows and producing all red or black offspring

DOUBLE BLACK: An animal whose sire and dam are both black, which give the animal the possibility of being homozygous for the black trait but its not yet proven so.

HOMOZYGOUS BLACK: An animal who carries two black genes and has been proven by mating or genetically tested to produce black or black factor (gray when mated with diluter-based genetics) calves with every mating.

Keep Your Mind in the Market

Volatile commodity markets and the speed at which narrow windows of opportunity to manage risk open and close underscore the value of keeping your mind engaged in the market, no matter how frequently you trade cattle.

That's why Seedstock Plus continues to offer as a free service to its customers and members a complimentary subscription to the daily Cattle Current electronic newsletter. It offers a convenient snapshot of the previous day's cash and futures markets for calves, feeders, fed cattle and related commodities. You'll also find pertinent market-related news.

If you're not receiving Cattle Current, or if you'd like to receive it at more than one e-mail address, please let us know and we'll add you to the list. You can send your request to wes@cattlecurrent.com.

Seedstock Plus is proud to once again be listed in the top 100 in bull sales by BEEF Magazine. Ranking # 16 on the list with over 735 bulls sold in the 2022 calendar year! We know bulls and we can certainly help you find one that is right for your program! Contact us if you need help in matching a bull to your needs!
